Glitter Stitching Sticker
Hearts #3197
Gold Sayings #339
3 A4 sheets white card stock
1 A4 sheet of red card stock
1 A4 sheet blue card stock
6 envelopes, foam tabs
Total Price: \$26.00

Happy New Year from Ecstasy Crafts!

Ecstasy Crafts Inc. would like to take this opportunity to wish you and your family a wonderful 2010! We start this year with projects for all the special people in your life that you would consider your Valentine! Included in this month's kit is a heart Clippunch that you will be able to use for all of your valentines but also any other occasion to show you care. These may include a wedding, a new baby, or a friend who touches your heart. The projects were designed to show the versatility of the heart Clippunch. If you like the heart shape be sure to check out the other designs available at www.ecstasycrafts.com. The transparent glitter heart stickers will also match any of your projects simply by attaching them to colored card stock and cutting them out then embroidering if desired.

How to use the Heart Clippunch

1. Your Clippunch set includes two punches, the inner punch (left) and the outer or design punch (right).
2. Punch your inner design first. Ensure that you move the paper to the back of the punch before punching.
3. Turn the outer or design punch upside down and align so the paper again is at the back of punch and then center the inner design within the opening. Punch down.
4. Clip onto your design like a paper clip. Use them to create frames, borders, the positive and the negative of the punch.

Use the Clippunch to make frames around your designs, make borders, add embellishments, use the positive of the shape and add to the card or use the negative of the designs to also create borders. See the examples included to show you each of these uses. Attach the Clippunch designs using tape or glue on the back or you may wish to use a glud pen to tack to the front.

Making the White Cards:

Cut the A4 sheet of card stock in half.

Find the center of each $\frac{1}{2}$ sheet of card stock and score a line with a rule and embossing stylus. This will allow you to make an nice even fold. Fold the card in half.

Creating the 3-D Designs:

1. Press out layer #1 and attach to the card using double sided tape.
2. Press out layer #2, place several foam tabs to the back of the layer and attach directly on top of layer #1.
3. Repeat step #2 until the remaining layers are completed.

****Tip:** The Morehead children sheet has several very thin items to press out (legs of the table and back of the chair). To ensure that they do not tear, you may wish to use a hobby knife to cut through the perforations around these areas and then lift out the layer. To attach these thin areas, cut several foam tabs into smaller pieces using a hobby knife before attaching to the back of the layer. ******

Card on Right:

1. Complete the 3-D design.
2. Make 2 red glitter stitched hearts as directed below and attach using foam tabs.
3. Make a “negative” heart punch border by punching out 8 Clippunch hearts (use for other designs). To make the designs evenly spaced, line up the edge of the punch with the center of the first inner punch design. Punch all 8 inner designs first then use the outer punch.
4. Decorate with gold and glitter stickers.

**Stitching Stickers:**

Stitching stickers are transparent stickers that you may place on your project or a colored piece of card stock then cut out. The stickers have gold dots on them that you may pierce with a needle tool to then embroider or leave as they are as a design on the sticker. The heart stickers are very versatile and perfect to accent your projects. Keeping with the Valentines theme I put them on the red card stock,

pierced the pattern and then embroidered with red rayon (machine embroidery) thread.

How to embroider:

1. On a piercing pad, pierce the holes of the design you wish to embroider with a piercing tool.
2. Embroider using a double strand of rayon thread or embroidery floss or a single strand of metallic thread.
3. Tape the end of the thread to the back of the project and then begin embroidering. When the

Card on the Left:

1. Complete the 3-D rose design on the left side of a white rectangle card.
2. Punch out 3 hearts using the outer heart clippunch only.
3. Attach the hearts as shown using a glue pen/stick.
4. Add a gold sticker saying and small gold sticker hearts inside the red hearts.
5. Decorate with glitter sticker lines.

Card on the Right

1. Cut a square piece of blue/purple card stock approx. 3.5" x 5".
2. Complete the 3-D design.
3. Punch approx. 24 red Clippunch hearts as directed on pg 2 and clip onto the blue purple card as shown.
4. Add the gold sticker saying and heart below the 3-D design.
5. Attach the 3-D design with the heart clippunch frame onto a white card using double-sided tape. Run the double-sided tape along the back of the clippunch hearts and the card to keep in place.

On the Cover:

1. Cut out a piece of light blue card stock approx. 3.75" x 5".
2. Punch out 12 red Clippunch hearts and attach to each edge of the design.
3. Attach to the card using double sided tape (ensure to cover the clippunch hearts along the back of the blue card).
4. Complete the 3-D design
5. Decorate with a gold sticker saying and a glitter line frame.

On the Right:(also see pg 3 instructions)

1. Cut a piece of pink/rose colored card stock 3" x 6" and fold in half.
2. Embroider 2 glitter hearts on white card stock with metallic pink thread.
3. Attach to card with foam tabs.
Decorate with gold and glitter stickers.

**Card on Right:**

1. Complete the 3-D design on a white card as shown.
2. Punch out 5 Clippunch hearts from pink/rose colored paper.
3. Cut a curve of brown colored card stock using a circle cutter or hobby knife.
4. Attach the Clippunch hearts to the curve of brown card stock.
5. Attach the curve with hearts above the 3-D design with double-sided tape.
6. Place a stitching sticker onto pink/rose colored card, pierce the gold dots and embroider with red thread. (see pg 3). Attach using foam tabs.
7. Decorate with a gold sticker saying and glitter sticker lines.
