- 2 yellow 4 x 6 cards
- 2 yellow embossed 4 x 6 cards
- 4 pink envelopes
- 4 yellow envelopes
- foam tabs

Ecstasy Crafts Inc. would like to take this opportunity to wish you and your family a wonderful 2011! We begin this year with a floral, butterfly and heart theme. You will be able to make projects for your special Valentine, special birthdays, for that special someone when you are just thinking of them and for upcoming weddings. Included in this month's kit are 4 embossed cards using 2 of our embossing folders; a background heart # CTFD018 and a daisy spray #CFTD3042, to allow you to begin exploring the many possibilities of embossing folders. If you like these designs go to www.ecstasycrafts.com for our complete selection of embossing folders (compatible with most cutting/embossing machines Cuttlebug, Sizzix etc.) The transparent glitter butterfly stickers will add just the right amount of sparkle to your projects. Simply attach the sticker to colored card stock, cut out, and attach to your project using foam tabs.....a perfect embellishment!

Creating the 3-D Designs:

1. Press out layer #1 and attach to the card using double sided tape.
2. Press out layer #2, place several foam tabs to the back of the layer, peel off the protective paper and attach directly on top of layer #1.
3. Repeat step #2 until the remaining layers are completed. All of the layers are numbered, complete in order.

Outline and Glitter Stickers:

Outline Stickers: Lift off the outline sticker using a needle tool, piercing tool or hobby awl. Attach to your project. If you are not completely satisfied then simply lift off the sticker and re-attach. These stickers are very forgiving!

Using the transfer sheet: In order to use the negative of the sticker (as seen with the hearts used in the cards to the right), simply use the transfer sheet. Cut a piece of the transfer sheet large enough to transfer your chosen design. Peel back the protective cover and place over the design. Rub down using a large embossing tool, smooth end of a marker tip, rub-on tool etc. Peel back the transfer sheet on an angle ensuring that all of the pieces are being lifted (if not rub again over these areas as you peel back). Now place your transfer sheet with the attached design onto the card in the desired position and again rub down. Peel back the transfer sheet...voila! Keep the transfer sheet and protective backing to re-use it many times!

Glitter stickers: Lift off and attach directly to your project or attach to another color of card stock and cut out. Attach to your project with foam tabs.

Adding Color: Add color to your gold or transparent glitter stickers by simply coloring over them with a permanent colored marker. (Alcohol based markers work the best see www.ecstasycrafts.com for Starform or Dufex brand markers)

**Red and Pink Roses (above top):**

1. Add the heart outline sticker, swirl, saying and lines at the top and bottom as shown.
2. Complete the 3-D design as shown.
3. Add a red ribbon bow as desired.

Floral boot with butterflies (above):

1. Use the transfer sheet and transfer the negative of the heart design (used in the top card) to a yellow card as shown.
2. Complete the 3-D floral boot design.
3. Attach glitter butterflies to yellow and blue card stock and cut out. Attach with foam tabs.
4. Add additional heart outline stickers as shown.
5. Add sticker lines above and below the center design

Red Roses: (right)

1. Complete the 3D red rose design on a pink card.
2. Attach gold outline heart stickers as shown.
3. Attach a wavy gold line at the top and bottom of the card.

Floral Bouquet: (below left)

1. Complete the 3D bouquet design on an embossed yellow card.
2. Attach small butterflies to card stock, cut out and attach with foam tabs. The two small butterflies at the sides of the bouquet were added directly to the card.
3. Add sticker lines to the top and bottom of the card.

Floral Basket and Butterflies: (below middle)

1. Use an heart embossed pink card and complete the 3D design on the left side as shown.
2. Attach 3 glitter butterfly stickers to blue card stock and cut out. Attach to the card as shown using foam tabs.
3. Add 3 little heart outline stickers around the embossed hearts above and below the 3D design.
4. Add line stickers to the top and bottom of the card.

Glitter Butterflies: (below right)

1. Add some outline stickers to one of the embossed yellow cards.
2. Use the transfer sheet to transfer the negative of the double heart sticker.
3. Attach glitter butterflies to yellow and blue card stock, cut out and attach using foam tabs.

If you enjoyed using these glitter butterflies go to www.ecstasycrafts.com to view other all occasion designs.

**On the Cover: Red Roses and 4 hearts:**

1. Attach the outline sticker hearts to the left side of the card.
2. Use the transfer sheet to add the negative sticker pieces to the card as shown. **Note:** the negatives are face opposite to the outline stickers used.
3. Complete the 3D design as shown.
4. Make a gold sticker line frame around the card.
5. Add a red ribbon bow as desired.

Hearts with small pink rose: (left)

1. Attach the outline stickers and negative stickers to a yellow card as shown.
2. Complete the 3D rose design. Add a pink ribbon bow.
3. Add small glitter butterflies to the card directly.
4. Color sticker lines with a purple or pink marker and add to the top and bottom of the card.

Yellow rose card: (right)

1. Cut the yellow piece of card stock in half and then fold in half to make the rectangle card.
2. Add the heart and swirl outline stickers as shown.
3. Add a glitter butterfly to the remaining yellow card stock and cut out. Attach with foam tabs.
4. Add a gold wavy line at the top and bottom of the card.

**Blue Bouquet card: (right)**

1. Cut the blue piece of card stock in half and then fold in half to make a rectangle card.
2. Add the negative sticker heart designs to the card using the transfer sheet.
3. Attach the outline stickers and saying as shown.
4. Complete the 3D bouquet design.
5. Add a gold line to the top and bottom of the card.
6. Add a red ribbon bow to the vase as shown.
